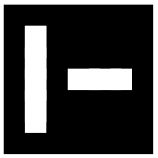
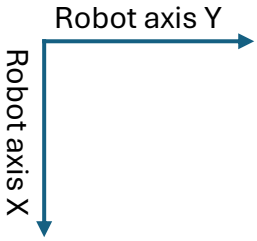
ID: 11

The robot must on the top side of the sheet.



(0, 130)

ID: 16



Robot axis Z points up

The camera must be on the right side of the sheet.

(130, 0)

ID: 10

Print on A4 sheet and double check that the distance between the centers of the markers in both directions is 130 mm. Otherwise, adjust the configuration file.

Align the robot axes with the sheet. Write to the configuration file the robot XY position and Z orientation when the robot gripper is at the center of the marker with ID: 11 (0, 0).
